EDUCATION

Georgia State University: J. Mack Robinson College of Business

May 2026

Bachelor of Business Admin. in Computer Information Systems: Cybersecurity/Data Analytics

Atlanta, GA

PROFESSIONAL EXPERIENCE

NCR Voyix

May 2025 – August 2025

Product Management Intern | Jira, Figma, Confluence, Smartsheets

Atlanta, GA

- **Guided product integration analysis** between NCR Voyix and third-party platforms (DoorDash, Uber Eats, Grubhub), **conducting** market and competitive research to support on-boarding strategy and integration requirements
- Built and presented **comparative analysis matrix** of POS systems (Toast, PAR, Qu, Symphony) to inform executive product decisions on feature adoption and commercialization.
- **Developed** architecture diagrams and user flows for DoorDash onboarding, leveraging Figma and Confluence to align product and UX teams

Southern Company Gas

May 2024 – August 2024

Product Development and Data Analytics Intern | Python, SQL, PowerBI, Tableau

Atlanta, GA

- **Utilized** Python and SQL to **integrate** weather data into linear regression models, **improving** forecast accuracy
- **Automated** validation logic for 100+ B2B clients, **reducing** data processing errors and ensuring model reliability
- Orchestrated the migration of 15+ dashboards into Power BI, partnering with stakeholders to align visuals with org-wide standards and improve decision-making adoption

PROJECTS

Atlanta Regional Commission (ARC) — IT Operations Optimization

January 2026 - May 2026

Project Manager | Power BI, Excel, BPMN, Snipe-IT, SharePoint, Microsoft 365

- **Led** a consulting team through a semester-long engagement with ARC IT, conducting weekly stakeholder meetings to analyze and optimize IT asset management processes supporting approximately 240 employees
- Built a Power BI asset-management dashboard by consolidating and analyzing data from asset inventories containing 300+ IT assets, **improving** visibility into asset categories, data completeness, and inventory status
- **Evaluated** and **demonstrated** Snipe-IT as a centralized asset-management solution; presenting prioritized recommendations and a 90-day implementation roadmap to ARC IT leadership
- Created BPMN process maps and co-authored standardized operating procedures (SOPs) to improve asset lifecycle management, ownership accountability, and onboarding workflows

PACE – Panthers Accelerated Career Experience with McDonalds

January 2025 - May 2025

Project Coordinator and Technology Lead | QSRSoft, Tableau, PowerBI, OpenAI

- Selected for a competitive consulting practicum with Sunshine & Sunrise Enterprises (McDonald's franchisee) to address declining satisfaction amid strong sales
- **Leveraged** QSRsoft for live operational diagnostics and combined AI-driven BI platforms (Power BI, ChatGPT) to uncover root causes of service breakdowns and model potential revenue uplift from retention strategies
- **Facilitated** executive stakeholder workshops and delivered a prioritized implementation roadmap securing leadership buy-in for a retention-focused pilot

Panthers Immersion Program | Panthers In Charlotte Captain

January 2024 – November 2024

- Selected from a competitive pool of 400 applicants via rigorous multi-stage application and selection process
- Leveraged the Georgia Fintech Academy, to present a data-driven proposal to Truist executives, communicating value proposition, risk management strategies, and implementation feasibility
- Directed a team in the Truist Case Challenge, securing 3rd place with an innovative co-living financial solution.
